# Gandola Egyptian Granite

## Warm Egyptian Granite with a Distinctive Natural Character

Gandola Egyptian Granite is a distinctive natural stone characterized by its warm pinkish-red and gray background combined with contrasting black, gray, and natural mineral grains.

Its naturally crystalline structure and balanced color variation give Gandola Granite an elegant architectural character, making it an attractive choice for projects requiring the durability of granite with a warm and distinctive natural appearance.

Suitable for both interior and exterior applications, Gandola combines the authentic character of Egyptian granite with excellent versatility for architectural, landscape, and custom stonework.

## Applications

Gandola Granite is suitable for a wide range of applications, including:

- Interior and exterior flooring
- Exterior façades
- Wall cladding
- Countertops and vanity tops
- Steps and staircases
- Paving and walkways
- Landscape features
- Columns and architectural elements
- Monuments and memorials
- Commercial and public projects

## Available Finishes

At Nileox Stone, Gandola Granite can be produced in a variety of finishes depending on the required appearance and application:

**Polished | Honed | Flamed | Bush Hammered | Brushed | Sandblasted | Antique**

Custom finishes are also available according to project specifications.

## Sizes & Custom Fabrication

Gandola Granite can be supplied as slabs, tiles, pavers, steps, countertops, wall cladding, monuments, and custom cut-to-size pieces.

Dimensions, thicknesses, edge profiles, surface finishes, and custom fabrication can be produced according to architectural drawings and individual project requirements.

## Warm Natural Color

The warm pinkish-red and gray background combined with contrasting mineral grains gives Gandola Granite a distinctive and naturally elegant appearance.

A polished finish enhances the depth of its natural colors and highlights the crystalline mineral pattern, while Flamed, Bush Hammered, and Sandblasted finishes provide a more textured character for exterior paving, façades, steps, and landscape applications.

## Distinctive Egyptian Granite for Lasting Architecture

From flooring and façades to countertops, paving, monuments, and custom architectural elements, Gandola Egyptian Granite brings together warm natural color, excellent versatility, and the timeless character of Egyptian stone.
